

# Portable Wafer Probe Station PS-5026B

Advanced TLP/HMM/HBM Solutions

## 1 Features

- Portable manual wafer probe station  
500 mm x 500 mm x 500 mm
- Electrically isolated chuck with vacuum interface and wafer backside potential connector
- Trinocular stereo zoom microscope with 80 times magnification and camera interface for chipfots
- Ultra long-life 20000 lx white LED ring light
- Including 5 MP USB video camera
- High reliability
- Low cost

## 2 System Description

The PS-5026B portable wafer probing station (Fig. 4) enables manual TLP/VF-TLP/HMM wafer-level measurements on up to 300 mm wafers. The probing station can also be used for RF, S-parameter and DC-measurements. Micropositioners with vacuum as well as magnetic base can be attached.

The chuck has a vacuum interface for the wafer and is electrically isolated. A 4 mm connector is used to connect a voltage potential to the wafer backside.

The trinocular microscope has 80 times magnification and is equipped with a camera interface and a bright and ultra long-life 20000 lx LED ring light.

The optional Picoprobe® micropositioner kit PHD-3001A (Fig. 3) is electrically isolated and can be customized for various micropositioners.

The PS-5026B is a rugged portable wafer probing solution which has been designed for high reliability, compact size and minimum investment cost.

## 3 Specifications

Parameter	Symbol	Limit Values			Unit	Remarks
		Min.	Typ.	Max.		
PS-5026B dimensions	W x D x H	500 x 300 x 500			mm <sup>3</sup>	system as shown in Fig. 4
PS-5026B weight	G <sub>S</sub>		14		kg	system as shown in Fig. 4
Chuck diameter	d <sub>C</sub>		150		mm	up to 300 mm wafers can be attached
Chuck capacitance to GND	C <sub>C,GND</sub>		70		pF	if chuck is not connected (floating)
Microscope magnification	M	10		80		variable
Microscope white LED light source	L <sub>LED</sub>			20000	lx	variable

## 4 Ordering Information

Pos.	Description	Part No.
01	Portable wafer probing station including trinocular microscope, USB camera and LED light	PS-5026B
02	Precision Picoprobe <sup>®</sup> and Micropositioner Kit PHD-3001A (Fig. 3), customized for Quater XYZ500TIM micropositioner	PHD-3001A
03	Quater micropositioner XYZ500TIM (please note: two micropositioners are required)	XYZ500TIM
04	Miniature vacuum pump	VP-5026A
